

ATLANTIC COUNTY

Site Investigator

<http://njgin.aclink.org/si/>

- ▶ The Site Investigator is an advanced Internet Mapping Service used to examine properties within Atlantic County for the purposes of spatial planning, market profiling, and environmental analysis.
- ▶ Zoning information, Demographic information, environmental variables, and neighboring parcel information are used by the Site Investigator to study a particular area.
- ▶ Orthophotography (geometrically rectified aerial photography) can be turned on as an additional tool for analysis.

Search Methods:

1. Municipality Search
2. Parcel Search
3. Address Search

Welcome to Atlantic County's Site Investigator! Here you can search for and retrieve information about properties located in Atlantic County.

You can generate environmental analyses for each property selected, get demographic information about the surrounding area and even add orthomage (geometrically rectified aerial photography) to your search results.

Site Investigator allows you to search for properties in a variety of ways depending on the information you already have:

- **Parcel Search** - Enter either:
 - a. a parcel identification number (PIN) for the property or
 - b. the municipality with the property's lot and block number or
 - c. the property owner's name.
- **Address Search** - Enter a street address and a zip code.
- **Municipality Search** - Select a municipality from the alphabetical list using the check box next to the name and then zoom to the selected municipality by clicking on the name.

Municipality Search:

The municipality search option provides an alphabetical list of Atlantic County municipalities. This allows the user to view the location of various municipalities on the map or zoom to a selected municipality. Furthermore, the mapping tools can be used to locate and get details and reports about specific parcels.
