

Atlantic County Flood Hazard Inventory

Series One: Identification

Buena Vista, NJ

Map Legend

Flood Prone Roads

- Critical
- Severe
- Nuisance
- Diversion Route
- Municipal Boundary
- Streams
- Water

Roadways

- State Highways
- County Routes
- Municipal Streets
- Other
- Railroad
- Power Line
- Driveways

***NOTE:**
Roadway segments were identified by municipal officials as "flood prone" due to elevation, tide, or inadequate drainage. Roads were categorized by severity and frequency of flooding under the following conditions:

Critical: Frequently flooded roadways where vehicles cannot pass and a diversion route must be used. Also, where infrequent but potentially hazardous flooding occurs and no diversion route is available.
Severe: Reoccurring flooding along a roadway where vehicles must reduce speed and maneuver around the hazard to pass safely.
Nuisance: Area of shallow flooding where vehicles cannot safely pass at the regulated speed.

This map is for demonstration purposes only and was not developed in accordance with National Map Accuracy Standards. Any use of this product with respect to accuracy and precision shall be the sole responsibility of the user. The map was developed, in part, using New Jersey Department of Environmental Protection Geographic Information System (GIS) digital data, in conjunction with the Atlantic County Office of Geographic Information Systems, but this secondary product has not been verified by NJDEP and is not state authorized. The geodetic accuracy and precision of the GIS data contained in this map has not been developed nor verified by a professional licensed land surveyor and shall not be nor is intended to be used in matters requiring delineation and location of true ground horizontal and/or vertical controls.
